Supply of lighting for construction work

EGM TECH delivered construction work lighting to Samsung company on the last day of the month

This construction work lighting was approved by Samsung company for EGM TECH's technology and manufacturing technology and it was commissioned to develop products for the safety and work environment improvement of the workers in the indoor construction work.

The construction work lighting is a 200W lighting product and it is a great advantage that it can cope with any work environment by making use of portability and mobility and can be connected to several lights.

We are planning to market construction lighting for S company to various indoor construction companies through various publicity media in the near future, and we expect that EGM TECH's sales will be helped in the future.

Global news

29 October 2018: Less than 15 minutes after taking off from Soekarno-Hatta International Airport, Some airplane crashed into the Java Sea.

Authorities quickly launched a search-and-rescue mission but later said they did not expect to find any survivors.

Throughout the day Monday, rescuers pulled debris out of the sea including parts of the aircraft's fuselage, ID cards and bags belonging to the passengers.

189 people were pronounced dead making it the second-deadliest air disaster in the country's history.
